Anaphylaxis Training Course (Online Webinar)

Price: €85.00 per person

Duration: 2 hours

Course Overview

This interactive **online webinar** is designed for healthcare professionals involved in the administration of medications or vaccinations. The session delivers critical knowledge to help participants recognize and effectively manage life-threatening anaphylaxis, ensuring patient safety in emergencies. Delivered by experienced trainers, the course provides a comprehensive understanding of anaphylaxis and covers practical, real-world scenarios, all from the comfort of your home or workplace.

Who Should Attend?

This course is ideal for healthcare professionals, including:

- **Doctors and General Practitioners**
- **Nurses and Nurse Practitioners**
- **Pharmacists**
- **Midwives**
- **Paramedics and EMTs**
- **Healthcare Assistants involved in medication administration**
- **Vaccination Clinic Staff**
- **Dentists and Dental Hygienists**

If your role involves administering medications, providing vaccinations, or managing patients at risk of severe allergic reactions, this course is essential.

Course Format

- **Guideline Lecture:** Comprehensive explanation of anaphylaxis, including its causes, symptoms, and emergency treatments, aligned with the latest clinical guidelines.
- **Group Discussions:** Interactive discussions to share experiences and deepen your understanding.
- **Scenario-Based Learning:** Case studies and simulated emergencies to enhance decision-making and critical thinking.
- **Problem-Based Learning:** Practical solutions for real-world situations, ensuring theoretical knowledge is applied effectively.
