

Basic Life Support (BLS) Training for Dental Practices

Immediate Care Training

At Immediate Care Training Ireland, we understand the importance of equipping dental professionals with the skills and confidence to respond effectively to medical

emergencies. Our **Basic Life Support (BLS) training**, based on the latest **American Heart Association (AHA) guidelines**, ensures your team is prepared to deliver critical care when it matters most.

Course Overview

Our on-site **BLS** training includes:

Immediate Care Training

- Comprehensive instruction aligned with the latest AHA guidelines.
- in Hands-on practice in high-quality CPR for adults, children, and infants.
- Safe and effective use of an Automated External Defibrillator (AED).
- Techniques for managing choking and unconscious patients.

Emma Campbell read emergency response scenarios tailored to dental practice settings.
