

Advanced Life Support (ALS): Advanced Airway Management Module

Self-directed online learning | Healthcare professionals | Course fee: €50

Course overview

The ALS: Advanced Airway Management Module is designed to teach providers how to evaluate and determine the need for an advanced airway in patients. The module covers oxygen monitoring and delivery before advanced airway placement, strategies and goals of insertion, troubleshooting, confirming correct placement, and ongoing patient monitoring.

Learning objectives

After successfully completing this course, learners should be able to:

- Describe the indications for advanced airway management.
- Describe pre-oxygenation strategies and goals.
- Describe the steps in the advanced airway insertion procedure.
- Describe post-intubation methods of confirmation and monitoring.

Course specifications

- Engaging True Adaptive learning.
- Responsive design compatible with mobile devices and tablets.
- Learners can select their level of competence at the beginning and change it during the course.
- Web-accessible curriculum using inclusive design.
- Compatible with common web browsers.

Intended audience

Advanced healthcare providers seeking additional airway-management content beyond ACLS, including physicians, emergency department and critical care nurses, physician associates, nurse practitioners/advanced practice nurses and respiratory therapists.

Booking and access

Available to book at any time - no fixed course dates. This is a self-directed online module. Following booking, an access code is provided so learners can begin without waiting for a scheduled course date. No classroom attendance is required.

Certification and continuing education

On successful completion of the online module and course evaluation, participants can obtain an American Heart Association (AHA) Certificate/Statement of Credit. This standalone module does not award an ACLS Provider eCard.

- Physicians: up to 0.25 AMA PRA Category 1 Credits™.
- Nurses: 0.50 ANCC contact hours.
- Paramedics / EMS: 0.50 CAPCE Advanced CE hours.
- Physician associates: up to 0.25 Category I hours through AAPA credit acceptance.
- Nurse practitioners: AANP accepts qualifying AMA PRA Category 1 Credit™.

Accreditation period: 19 October 2025 - 18 October 2028. These are US continuing education arrangements; recognition towards Irish or UK CPD requirements is subject to the relevant professional body.
